

## **EHS & Regulatory Analyst**

Olympus Energy LLC (“Olympus”) is seeking a motivated team member for the position of EHSR Analyst for its Pittsburgh area office. This position will provide critical support in data organization and analysis for a variety of environmental, safety and regulatory programs. This role will report to the Safety Manager.

### **Core Responsibilities**

- Assist the Safety team in managing contractor data for Olympus’s ISN platform.
- Calculate metrics related to environmental compliance, safety, and ESG efforts
- Administer Olympus’s environmental and safety data management system
- Assist with development of various plans and programs related to safety and risk management
- Develop safety newsletters, alerts, and other communications
- Assist the Safety and Environmental teams related to data management, tracking and analysis

### **Job qualifications:**

- Associate degree in a related field; Bachelor's Degree preferred
- Excellent analytical and problem-solving skills.
- Excellent organizational skills and attention to detail.
- Knowledge of EHS management system
- Proficient in Microsoft Office Suite or related software.
- Excellent verbal and written communication skills
- Two years of oil and gas related experience preferred

Olympus is committed to creating an inclusive and diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, gender, gender identity or expression, sexual orientation, religion, national origin, genetics, disability, age, or veteran status.

Interested candidates may submit resumes via email to [careers@olympusenergy.com](mailto:careers@olympusenergy.com). Resumes will be reviewed as received and candidate interviews will begin immediately. Olympus is not accepting resumes from staffing/search firms at this time.
